II. GRAMMAR

1. VERB TENSES — PRESENT TENSE

DEFINITION

A verb tense tells us **when** an action happens — in the past, present, or future. In this unit, we focus on the present. The present tense in English describes actions, states, habits, or facts that are true now, generally true, or happening around the present moment. English has **four** present tense forms. They are: **Present Simple**, **Present Continuous**, **Present Perfect Simple**, and **Present Perfect Continuous**.

Each one of the present tenses answers a different question:

Tense	Answer the question...	Example
Present Simple	What do you usually do?	I work in IT.
Present Continuous	What are you doing right now ?	I am working on a new app.
Present Perfect Simple	What have you done (with a result now)?	I have finished the project.
Present Perfect Continuous	How long have you been doing this? (duration)	I have been working here for 5 years.

1. PRESENT SIMPLE TENSE

Meaning and When to Use It

The **Present Simple** is used for:

Use	Example
Habits and routines (things you do regularly)	I go to work every weekday/ David drops off his kids at school every morning.
General truths and facts	IT Engineers develop and monitors websites/ Computers process data quickly.
Permanent situations	My daughters are cute/ She works as an IT Engineer.
Schedules and timetables	Work starts at 8 a.m. / The meeting starts at 9 AM.

Key words that signal Present Simple: always, usually, often, sometimes, never, every day, every week, on Mondays, in the morning.

Note: simple present tense takes **one verb** only

⚠ Spelling rules for He/She/It:

With he, she, it (3rd person singular), you must add **-s, -es or ies** to the verb in affirmative sentences. This is the #1 mistake Spanish speakers make, because Spanish verb conjugation doesn't work this way (e.g., "*él trabaja*" → in English it's "*he works*", not "*he work*").

- Verbs ending in **-o, -ch, -sh, -ss, -x, -z** → add **-es** (go→goes, watch→watches, fix→fixes)
- Verbs ending in consonant + **y** → change **y** to **-ies** (study→studies, try→tries), **except the verb to play, plays**.
- Everything else → just add **-s** (work→works, plan→plans)

❖ Structure

The structure is simple:

Affirmative: Subject + base verb (+ s/es/ies for he/she/it)

Negative: Subject + do/does + not + base verb

Question/Interrogation: Do/Does + Subject + base verb?

Negative interrogative form: don't/doesn't + subject + base verb?

Forms of the Present Simple Tense

☒ AFFIRMATIVE (Positive)

Pronoun	Verb (to work)	Example sentence
I	Work	I work in an office in New York.
You (singular)	Work	You work with computers.
He/She/It	Works	He works as an IT Engineer.
We	Work	We work as a team.
You (plural)	Work	You work hard every day.
They	Work	They work in the IT department.

✗ NEGATIVE

Structure: (subject + do/does + not + base verb)

Contractions: **do not = don't / does not = doesn't**

Pronoun	Structure	Example
I	do not (don't) + verb	I don't work on Sundays.

You (plural)	do not (don't) + verb	You don't work in that building.
They	do not (don't) + verb	They don't work on holidays.

Tip: With he/she/it, "does" already carries the -s, oes, so the main verb goes back to its base form. ("He doesn't works" is **WRONG ✗**. → "He doesn't work" is correct **✓**.)

? INTERROGATIVE FORM (Do/Does + subject + base verb?)

Pronoun	Structure	Example
I	Do I...?	Do I need to attend the meeting?
